## TECHNICAL PROJECT MANAGER

**FULL-STACK SOFTWARE | CLOUD APPLICATIONS | CUSTOMIZED SOLUTION**

Dear Convercent:

Recently I've begun a soft search for a new position where I can solve business problems, communicate with different audiences and utilized my technical skills.

Please accept this letter, along with my accompanying resume, to express my interest in the technical project manager position you are currently seeking to fill.

Please consider the following qualifications:

- Lead cross-functional teams to prioritize and integrate solution-driven projects, ensuring the right talent is engaged and utilized at every level of deployment to achieve successful project delivery outcomes.
- Able to navigate through a broad range of systems, applications, architecture, language, and designs to create viable business solutions, meeting the ever-changing advancements in IT technology management.
- Serve as a principal strategist and visionary for the design, installation, support, and enhancement of enterprise-wide and cloud-based operating systems.
- Noted for managing high-profile projects affecting the entire organization, and consistently meeting service level and timeline commitments.
- Maintain a proper balance between business and operational risk during deployment of system/application upgrades, and improvements.

Additionally, I possess both technical and interpersonal skills to effectively engage with diverse workgroups across varying levels of professional competence to communicate and launch an improved product solution strategy. I welcome the opportunity to discuss employment with your company during a personal interview and hope we can arrange a mutually convenient time for us to meet.

Thank you for your time and consideration, and I look forward to hearing from you.

Sincerely,

Jarvis Fosdick
