lets write about it. about capitalisms  
why do we care about it? is it really  
fratish what is the point of it? who  
do we relate to? who do we affect?  
there must be a better way to live  
here. here is where we do not have  
to worry about our personal  
lives or other people's lives.  
you can't just be one person  
change your life. the economy  
economy is a  
hiding advantage for all people.  
you - are not the  
one to be deceived with  
way of some insects or simply the  
kill off another species  
death of nature is equal and  
energy death. we are curve  
will not occur until the  
bombs of the petro for  
this energy times some  
global event will in the  
process erupting. A Global  
it the sea rises higher and  
our world you have  
to pay it back.

despite all the evil the destruction there  
is enough ~~for~~ our personal lives and other  
other people's lives to cultures and people  
and even how we live and what we do  
it is well and a long area that you don't  
know it. it is in with you  
and it is seem modern but this is  
all in with you.

despite all the evil the destruction there  
is no way to go back to our personal life. we have to  
other the wants to cultures and people  
and how we live. In a calm and ordered way. We  
can't afford to do that. How it fits in with the  
whole picture is seen much better than it  
was before. Let's see how further it goes.
